## Electronic Transmission of Election Materials

Since the 1990 general election faxing has proven to be a valuable alternative method for facilitating the enfranchisement of military persons and overseas citizens serving their country who may have otherwise been unable to vote. This initiative has helped ensure these citizens were not disenfranchised by allowing them to cast a ballot when they would otherwise not have been able to vote due to time and location constraints.

Throughout an election year cycle, various circumstances exist that require the need for this alternative procedure in order for citizens to vote. The basic concept of electronic transmission of election materials is to secure high-speed delivery of election materials to and from the voter and local election officials. Your support in developing the **acceptance of electronic transmission for all aspects of the process**, with proper controls, would cut the ballot transit time at least in half. This would reduce the major obstacle to voting absentee and allow local election officials more administrative flexibility in preparing election materials.

Consideration should be given to expand the use of modern technology in the absentee voting process. We realize Nebraska enacted legislation to provide for electronic transmission of the Federal Post Card Application (FPCA) for registration and ballot requests. We recommend expanded use of this alternative to include electronic transmission of the unvoted ballot to the voters covered by UOCAVA, and accepting the voted ballot from these voters via electronic transmission. **Thirteen** states now allow electronic transmission of the FPCA for registering and requesting the absentee ballot, sending the blank ballot, and accepting the voted ballot.

## Sample Language

*An applicant who is a member of the United States Armed Forces or the United States merchant marine, a family member, or is a qualified elector living outside the United States, may apply for registration and an absentee ballot by electronic transmission if otherwise qualified to apply for and vote by absentee ballot. A local election official may send and receive absentee ballot applications and accept voted ballots from eligible electors via electronic transmission.*

## Emergency Authority for Chief Election Official

During a period of a declared emergency or other situation where a short time-frame for ballot transmission is created, it is recommended that **Nebraska's Chief Election Official have the authority to designate alternate methods for handling absentee ballots** to ensure voters have the opportunity to exercise their right to vote. The Chief Election Official and the Federal Voting Assistance Program could establish expeditious methods for handling absentee ballots including electronic transmission. As an example, in light of the surge of Guard and Reserve forces being deployed, the Chief Election Official can temporarily allow electronics transmission of voting materials for Active Duty Military. **Fifteen** states have

## Nebraska 2005 Legislative Initiatives and Sample Language

passed legislation giving the Chief Election Official authority to designate alternate methods of handling absentee ballots in emergency situation.

### *Sample Language*

*If a national or local emergency or other situation arises which makes substantial compliance with the provisions of the Uniformed and Overseas Citizens Absentee Voting Act impossible or unreasonable, such as a natural disaster or an armed conflict involving United States Armed Forces, or mobilization of those forces, including State National Guard and Reserve components of this state, the Chief Election Official may prescribe, by emergency orders or rules, such special procedures or requirements as may be necessary to facilitate absentee voting by those citizens directly affected who otherwise are eligible to vote in the state.*

*The Chief Election Official shall adopt rules describing the emergency powers and the situations in which the powers will be exercised.*
